

Music Social Skills Program

The Music Social Skills program is a 10 week, multi-component music platform designed to improve the emotional understanding and social skills of high-functioning 5 to 12-year-old children diagnosed with Autism Spectrum Disorder (ASD).

Music captivates children with its hands-on learning environment and variety of rhythm and songs. Each session provides movement, composition, singing, playing instruments, and is designed to help children learn new social and emotional skills in a fun environment.

Parents will receive information and strategies to help young 'musicians' develop and practice new skills at home and at school during the parent information session.

Topics of Instruction:

- Impulse control, taking turns and waiting
- Following instructions
- Talking and playing with others
- Joining in conversations and activities with others
- Labelling emotions
- Developing an understanding of how situations make them feel
- Identifying appropriate strategies to manage unpleasant emotions
- Solving social problems

What are the participation requirements?

- Child must have a diagnosis of Autism Spectrum Disorder
- Child must have verbal communication skills and an IQ within a normal range (or above)
- Child must be able to participate in a group setting without additional support beyond that provided within the program
