

With the recent announcement to extend the school closure period until at least May 31, 2020, and the emergency order that restricts large group gatherings, the Simcoe County District School Board (SCDSB) has made the difficult decision to cancel all graduation ceremonies, commencements and year-end celebrations. School staff are currently exploring various options, including the use of digital platforms, to recognize these important milestone celebrations.

We know that our students and families were looking forward to attending these important celebrations, and we can appreciate that this is disappointing news. Due to the uncertainties surrounding the COVID-19 pandemic, it was a decision that had to be made in order to protect the health and safety of students, families and staff.

Although the year-end celebrations will look differently from what we had originally planned, we are committed to acknowledging the hard work and achievement of our students before the end of this school year.
